Aluminium Termination Bar

Overview

Aluminium termination bars are a neat and efficient means of terminating roofing and waterproofing membranes at wall abutments. It is manufactured from 6063/T6 aluminium. It is available from stock in mill finish, or can be powder coated to special order. Aluminium termination bars will not rust and are not affected by atmospheric pollution. GRP and aluminium termination bars should be fixed at maximum 300mm centres, using suitable fixings. A comprehensive range of fixings and drill bits is available from stock.

Details

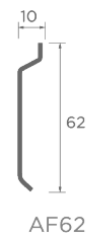

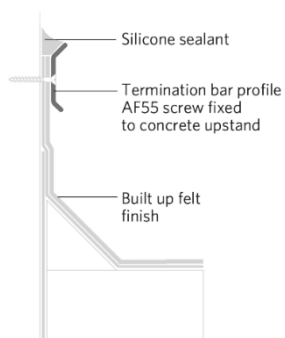

Material	Aluminium 6063-T6
