Edge Spring Clip

Overview

The Edge Spring Clip is a stainless steel, spring-loaded edge spacer clip designed to maintain a consistent drainage gap around the edges of paved areas while keeping the paving locked in place to prevent paver creep and the widening of paver gaps. It features a centre slot for placement over pedestal spacer tabs and has a 12mm tensioned edge spacer to ensure that paving on terraces and balconies complies with BS 8579 recommendations: As-built gaps of 10 mm to 12 mm should be maintained around the perimeter of the pedestrian surface to facilitate good drainage.

- Two sizes available for 20mm and 50mm paving
- Meets the BS 8579 recommendation
- Facilitates good drainage
- Prevents paver creep and the widening of paver gaps

Details

Material	Stainless Steel A2 (semi hard)
Dimensions	167 x 40 x 17mm

Performance

Reaction to fire (BS EN 13501-1)	Inherently A1 (Decision 94-611/EC)
Biological and chemical	Resistant to moulds, algae, alkali, bitumen, UV
Warranty	30 years*
Design life	60 years

*when used as part of a complete RYNO system
