

T

Aluminium Support Rail

Overview

The Aluminium Support Rail is a non-combustible aluminium support rail designed to support RYNO decking boards. Support joists are designed to be secured directly to balcony steelwork, creating a fit-for-purpose height buildup where timber batten is being replaced or a low-height buildup is required.

- Class A1 fire rated
- Large fixing flanges for fixing into steelwork
- Manufactured from incredibly strong and lightweight aluminium
- Available in a mill finish or powder-coated

Details

Material	Aluminium 6063-T6
Dimensions	48mm x 25mm x 3600mm

Performance

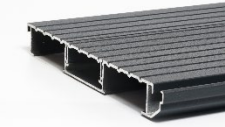

Reaction to fire (BS EN 13501-1)	Inherently A1 (Decision 94-611/EC)
Maximum spacing	Determined by board span capability
Maximum span	Full support required
Biological and chemical	Resistant to moulds algae, alkali, bitumen, UV
Warranty	30 years*
Design life	60 years

*when used as part of a complete RYNO IGNO system
