RYNO®
FINISH STRONG

rynosystems.com

Equipment
Allen/Hex Key
2mm Socket

General Notes

- On delivery, all products should be inspected. If there are any issues with our products, please report them immediately and do not commence installation

- Safe working practise should be observed at all times during the installation process and all necessary Personal Protective Equipment (PPE) should be worn

- Always use correct PPE throughout installation

Sacrificial Tethers

M3 x 35mm Socket
Flanged Button Screw

Wind Uplift Fixing Clip
1. Position the clip at the centre of side of tile.
**2.** Turn the bottom washer vertical.
**3.** Insert the clip through the gap between the tiles.

**4.** Ensure the bottom washer protrudes beneath the paving completely.

5. By lifting the looped tag on the upper section, pull the lower washer tightly against the tile, enabling you to locate and engage the screw.

6. Once located, use an allen/hex key to tighten the screw securely.

7. Once the clip is fully fastened, pull the tether until it snaps off.
