

CSC Decking Starter/End Clip

Overview

Component Summary:

The Decking Starter/End Clip is an ultra-simple yet useful metal clip used across several RYNO® decking systems to secure the edges of the first and last decking boards. This straightforward clip is secured down to a joist using the Decking Screw or the Decking Screw for Timber, and the decking board simply clips into the raised area.

- Secures the first and last decking boards
- Designed for use across several RYNO® decking systems
- Secure clamp fix
- Easy to install
