

VCT

Decking Clip – Vitrified Composite

Overview

Component Summary:

This Decking Clip is a refreshingly simple fixing clip for the Vitrified Composite Decking, which features an area around the fixing hole that intentionally deforms to provide a secure clamp fix when the DS Decking Screw is used. The T-clip maintains consistent 7mm board gaps across the decked space, while the starter/end clip also plays a vital role securing boards around the edges of the area. The stainless-steel clips are chemically blackened to ensure they blend into the darkness of the gaps in the decking.

- Discrete black fixing detail
- Maintains consistent 7mm board gaps
- A2 stainless steel
- Secure clamp fix
- Designed specifically for VC Vitrified Composite Decking

Details

Material	Stainless Steel A2, with black surface treatment
Dimensions	See "Part information" below

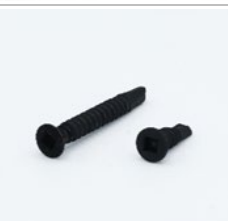

Performance

Reaction to fire (BS EN 13501-1)	Inherently A1 (Decision 94-611/EC)
Biological and chemical	Resistant to moulds, algae, alkali, bitumen, UV

Part Information

Description	Length	Width	Height
Starter Clip	40mm	11mm	9.5mm
Decking Clip	40mm	22mm	9.5mm

Compatible Components

	VC Vitrified Composite Decking Board		DS Aluminium Joist
	DSB Decking Screw		

Compatible Systems

TerraSmart®

Vitrified Composite® Decking System

A1 fire-rated, wood effect decking systems for waterproofed substrates

BalcaSmart®

Vitrified Composite® Decking System

Non-combustible, wood effect decking system for metal framed balconies
