Habitats System

Overview

The Habitat Systems enable you to create an innovative and completely customisable habitat for creatures like bees and birds on your roof terrace, allowing life to thrive in amenity spaces in a unique and sustainable way. The system can feature any design integrated into the planter face, or a standalone unit that can be fixed wherever looks best. The system enables creativity of design and integrates seamlessly with the bespoke planters. Choose from a range of finishes and create a design that is right for your project.

- Zintec, Corten and Stainless available
- Wide range of finishes and coatings
- Range of house designs
- Limitless scope to create planter
