

TERRASMART RESIN BOUND GRAVEL SURFACING SYSTEM

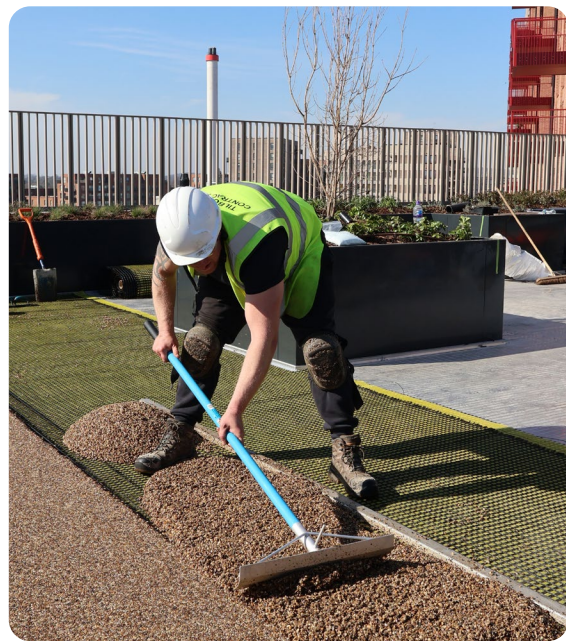

Raised, lightweight flooring system with a seamless resin bound aggregate finish.

OVERVIEW

The TerraSmart Resin Bound Gravel System® offers a sleek, jointless appearance thanks to its permeable top surface, making it the perfect choice for walkways and communal areas on roof terraces. The lightweight, adjustable raised system, featuring the Basebase board, is designed to seamlessly integrate with TerraSmart Rail Paving Systems and Planter Systems.

- Lightweight system
- Completely permeable
- Select from 14 colourways
- Seamless appearance
- Very low maintenance
- Integrates with other systems

Don't just take our word for it...

The system goes together really simply. The Ryno baseboard comes in long lengths, which makes the whole installation much quicker. It's a really solid system.
