Aluminium Juliet Bracket

Overview

The Aluminium Juliet Bracket is a versatile full length fixing bracket for the Vantage Juliet Guarding System. It is designed for maximum efficiency, enabling fixing within the reveal or where façade face fix is required. Using a full-length bracket avoids installation errors from misaligned brackets, and creates a smart, strong aesthetic. It is made from high strength structural aluminium and can be cut to length to suit any application. It features a textured powder coated for a high-quality durable finish.

- Made from structural grade aluminium 6005A T6
- Highly versatile, suits multiple fixing scenarios
- Enables perfect install, every time
