

SDE-F Soffit Angle Drip Edge Profile

Overview

The Soffit Drip Edge Closure kit is designed to along the front edge of the balcony. It features a slotted drip edge detail which directs rainwater away from the building and balconies below, and has a installation detail which shows no visible fixings. It is used with the edge profiles and soffit boards to create a complete Edge Drainage Soffit. It is made from high strength aluminium 6063 T6 and has a powder coated finish to match other components of the soffit.

- Drip Edge extends 30mm in accordance with BS 8579
- Manufactured from high strength aluminium 6063 T6
- Powder coated finish
