

RSN

Rail Step Nosing Profile

Overview

The RSN Rail Step Nosing Profile is an smart bullnosed aluminium profile, intelligently designed to comply with approved doc K guidelines regarding clearly visible and non-slippery nosing. It has a 50mm visible top surface and a 30mm vertical face and is tactile in design to aid grip. When installed it facilitates the connection of a vertical paver to the rail system, creating a vertical face and hiding the raised support system where there is a visible change in level surface, or on steps. It can be fixed to the side of the RST27 top rail, and to the ends, enabling use in a range of scenarios. It can be powder coated to contrast with the paved surface.

- Fully compliant with approved doc K requirements regarding trips and falls
- Made from durable aluminium
- Enables vertical closure of a raised paving system
- Can be powder coated to contrast paving

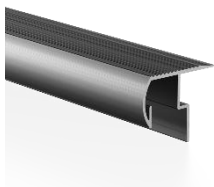

Details

Material	Aluminium 6063-T6
Dimensions	52x33mm (visible surfaces)
Weight	0.85kg/m

Performance

Warranty	30 years
Design life	60 years

Finishes

			
Mill Finished Aluminium	Custom RAL colour options		

Compatible Components

	RST		PT-QU
	Aluminium Paving Support Rail		Quadro Porcelain Paver
