Glade Artificial Grass

Overview

Glade Artificial Grass is an exceptionally realistic looking premium artificial grass product. It has a blend of multi-coloured grass blades for a natural appearance, and is made from anti-static 'pcr' recycled fibres. It has a pile depth of 35mm, and is stitched into a bio-based backing which uses renewable materials like soybeans to replace petroleum, enhancing sustainability. It has been tested to BS EN 13501-5 and achieved a B_{roof(t4)} classification, making it suitable for rooftop applications.

- Exceptionally realistic
- Environmentally friendly
- Blend of 3 colours for natural aesthetic
- B_{ROOF(t4)} classified in accordance with BS EN 13501-5

Details

Material	100% PE monofilament with PP thatch
