

BC Balustrade Connector Bracket

Overview

The Balustrade Connector Brackets are aluminium brackets used to connect straight lengths and 90-degree corners for both the handrail and basetrack components. Formed from high-strength aluminium, they are machined to work for almost any balustrade design and are completely non-combustible.

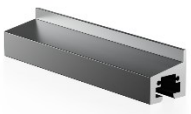

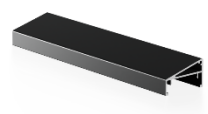

- Versatile design to suit any balustrade project
- High-strength aluminium
- Non-combustible

Part Information

Part Description	Material	Dimensions
