

T

Aluminium Support Rail

Overview

The Aluminium Support Rail is a non-combustible aluminium support rail designed to support RYNO decking boards. Support joists are designed to be secured directly to balcony steelwork, creating a fit-for-purpose height buildup where timber batten is being replaced or a low-height buildup is required.

- Class A1 fire rated
- Large fixing flanges for fixing into steelwork
- Manufactured from incredibly strong and lightweight aluminium
- Available in a mill finish or powder-coated

Details

Material	Aluminium 6063-T6
Dimensions	See “Part Information”
Weight	See “Part Information”

Performance

Reaction to fire (BS EN 13501-1)	Inherently A1 (Decision 94-611/EC)
Maximum spacing	Determined by board span capability
Maximum span	Full support required
Biological and chemical	Resistant to moulds algae, alkali, bitumen, UV
Warranty	30 years
Design life	60 years

Part Information

Code	Width	Height	Length	Weight
T25	48mm	25mm	3600mm	0.57kg/m
T50	90mm	50mm	3600mm	1.78kg/m
