

AC AluClip

Patent Number:
GB2596788

Overview

The AluClip is an innovative aluminium clip designed to ensure a tight fit, strong connection, and create uniform gaps between ADB Aluminium Decking Board - Indirect Fix. This elastomeric black powder-coated clip is designed to be clipped into the side of one deckboard and locks itself in place during installation. Available in two widths, the clever shape means the deckboards are pulled together as the DS Decking Screw tightens, ensuring consistent, tight gaps between decking, while this indirect fixing allows for horizontal expansion and contraction.

- Secure indirect fixing
- Self-locking design for easy installation
- Wide 60mm clip available to hide mill finish joists
- Creates uniform gaps between decking boards
- Allows for horizontal expansion and contraction

Details

Dimensions	20mm (60mm available on request)
Coating	RAL9005 Matt Interpon RAL9005M Akzo Nobel SN805G

Performance

Reaction to fire (BS EN 13501-1)	Inherently A1 (Decision 94-611/EC)
Biological and chemical	Resistant to moulds, algae, alkali, bitumen, UV
