End Board Support

Patent Pending: GB 2302624.8

Overview

The End Board Support fits neatly under the cut edge of the aluminium deckboards, providing a secure fixing and solid surface right to the edge of the decking surface, regardless of the size the board needs to be trimmed down to. Available to suit all RYNO® aluminium decking boards, the innovative design allows this product to be used on its own or doubled up to support the smallest of cuts and reduce wastage across your decking project.

- Supports ultra-narrow cuts
- Ultimate versatility - use single or doubled up
- Available to suit all RYNO® Direct Fix aluminium decking boards
